LMT and EU Programmes

Our expectations while joining EU Programmes

- Networking opportunities
- Experience and market research
- Supportive funding for LMT's innovations

Firsts steps

- 2017-2018 Having consultations with NCP and visiting first Horizon 2020 brokerage events
- 2019 Actively presenting LMT's interest in the brokerage events and joining first projects
- 2020-2021 Rising LMT's roles in new projects and coordinating a project Radio2S

LMT in EU R&D projects

Re-imagining the way cybersecurity research, innovation, and training are performed in Europe across domains and expertise, from foundations to applications, in academia and industry

COMP4DRONES is an ECSEL JU project coordinated by Indra that brings together a consortium of partners with the aim of providing a framework of key enabling technologies for safe and autonomous drones

The vision of the 5G-Routes project is to **enable Connected and Automated Mobility (CAM) on the border of Latvia and Estonia with the 5G network**, connected cars and digital road technologies

LMT in EU R&D projects

EDIDP iMUGS

The objective of iMUGS is to develop and deploy a European technology based ground and aerial vehicle system, and the related infrastructure with the aim of advancing the capabilities of the participating European industries & armed forces

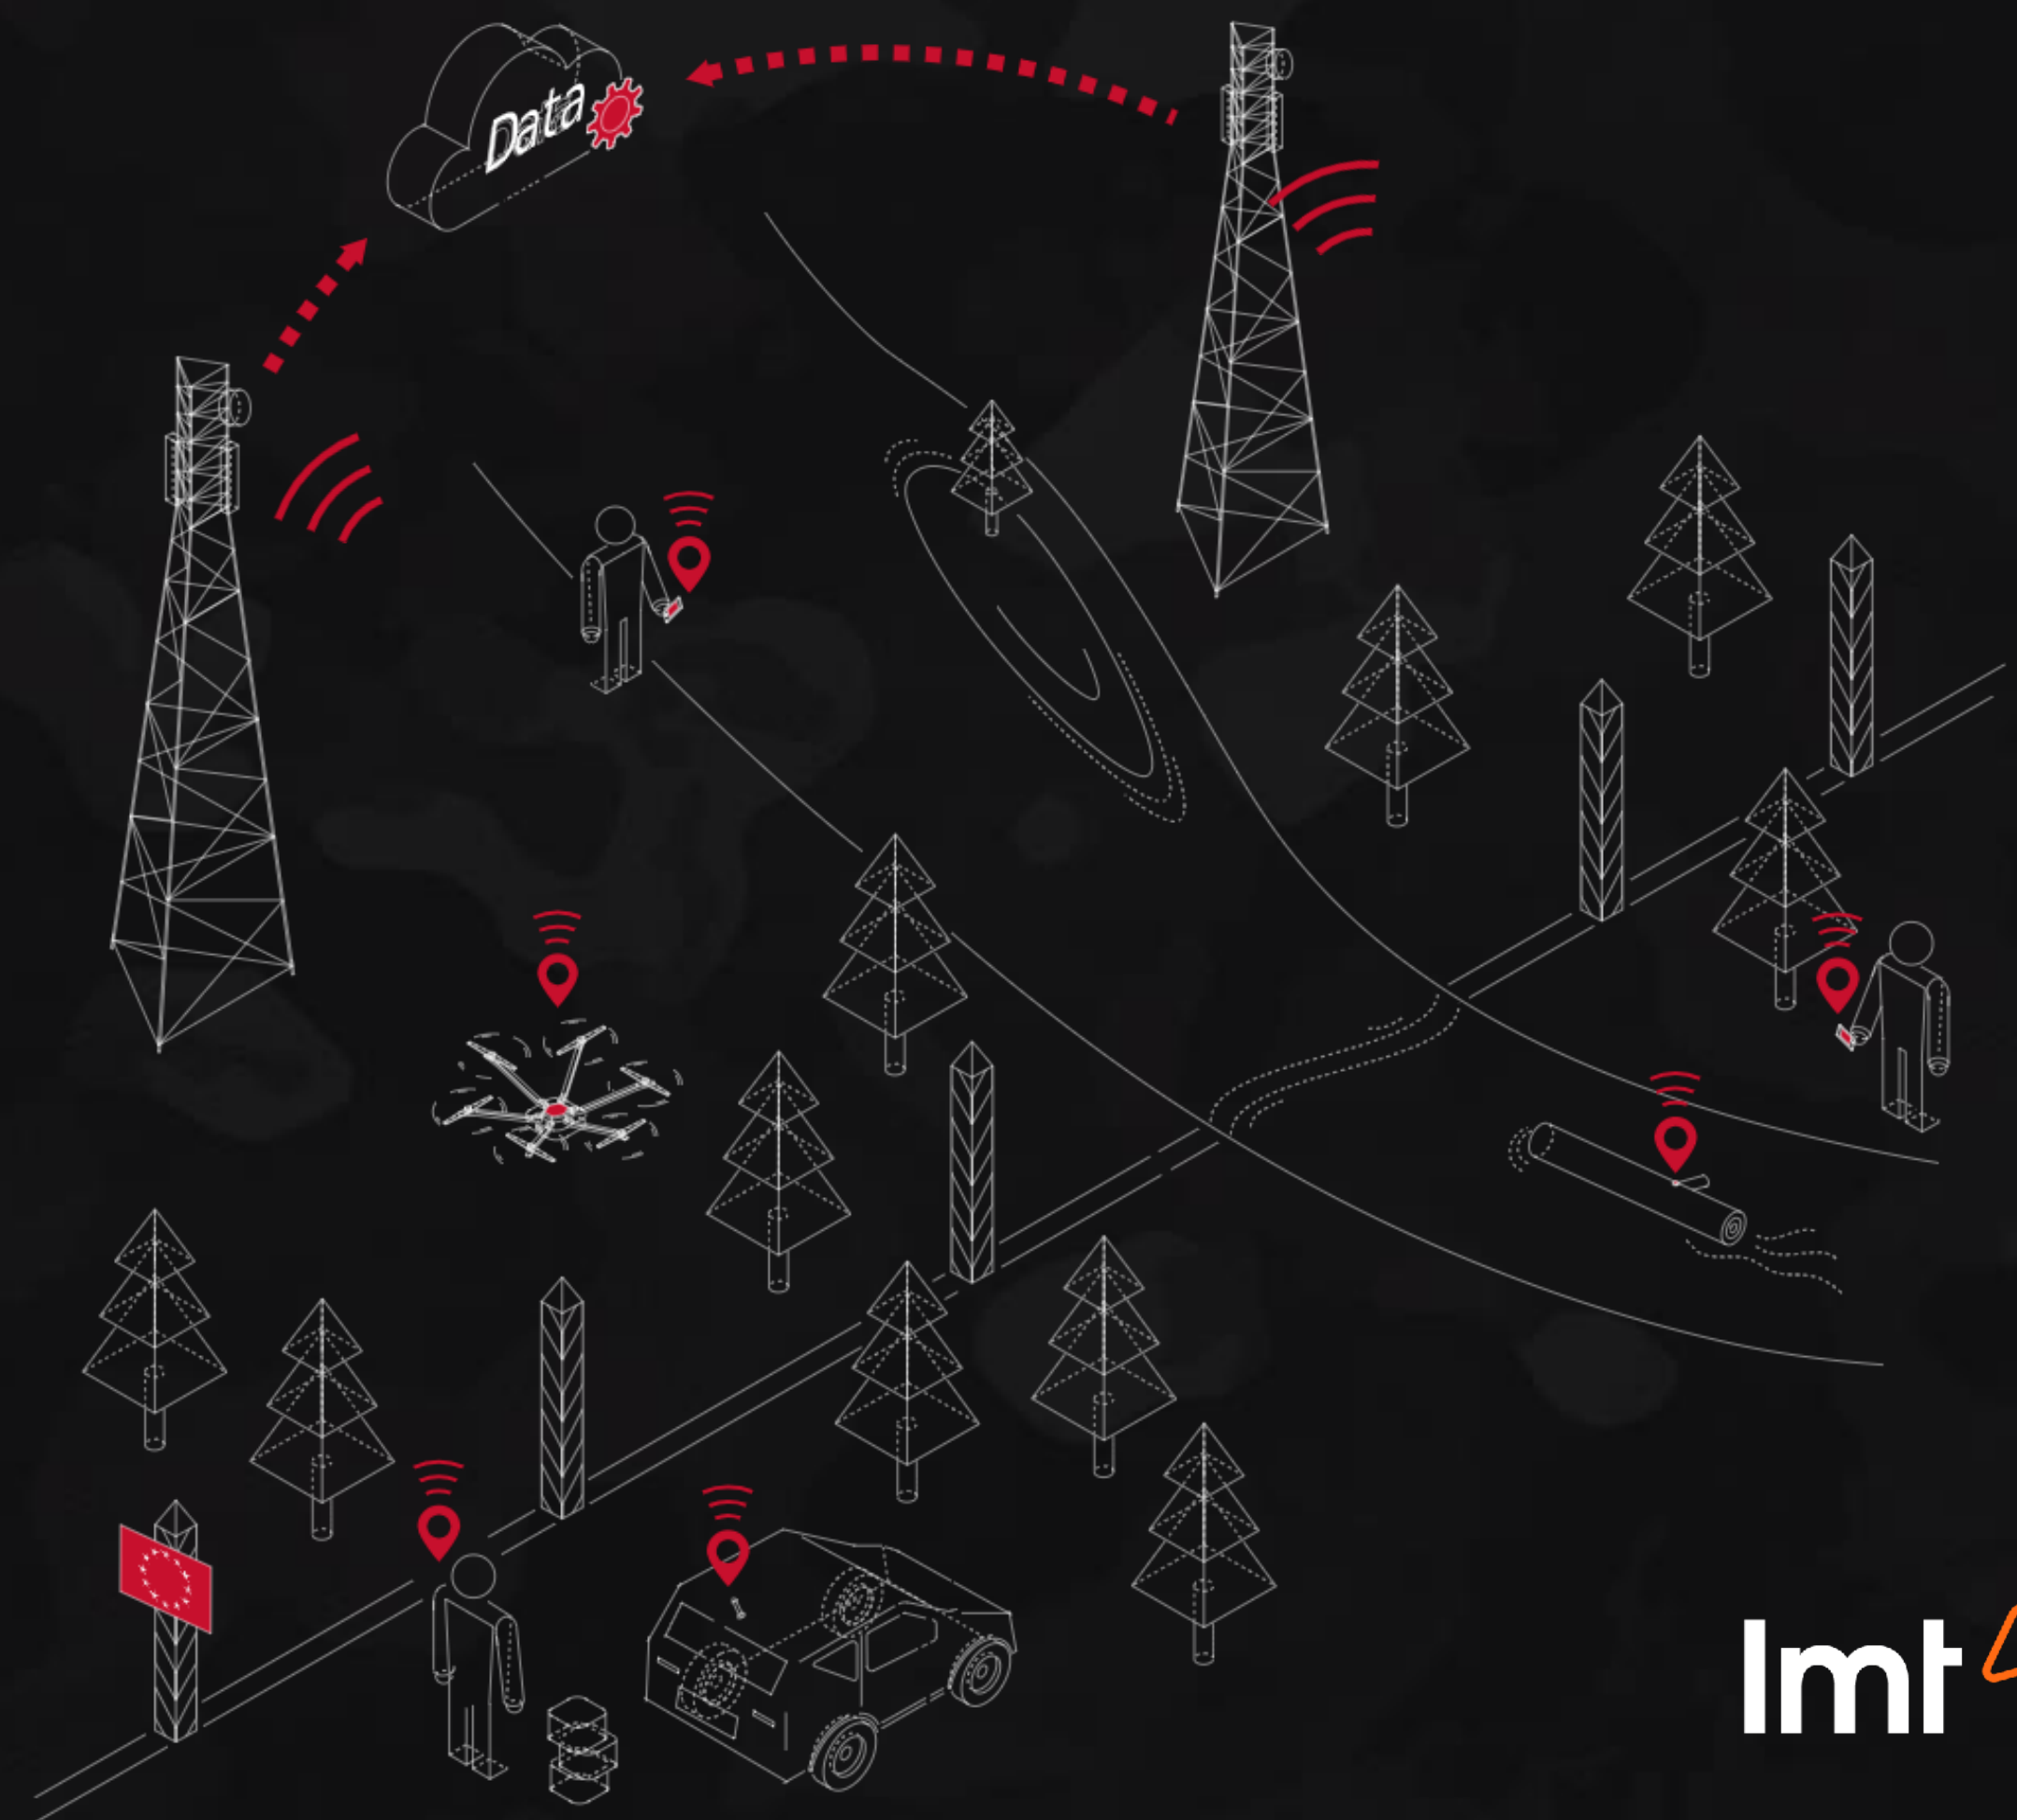

LMT as coordinator Project Radio2S

An autonomous monitoring solution for securing the EU's external border

The Radio2S project has incorporated representative Law Enforcement Agencies from **six European countries - Latvia, Lithuania, Romania, Greece, Moldova, Bosnia and Hercegovina.**

Ranked 4 from 20 proposals with 13 points out of 15 possible

Conclusions

- EU Programmes provides very qualitative networking
- Participation as tool for market research
- Coordination of Horizon project is at least good test for your team and very efficient team building activity
- Participation in EU Programmes brings a lot of opportunities and keeps up to date your company and team. I highly recommend to use this opportunity

Thank you!
